

Dear FCC representative,

Thank you for serving the American people through your hard work at the FCC. We appreciate the role that you play in our great democracy.

When most Americans get their information about political candidates from TV news, it is imperative that we do all we can to keep TV news honest and objective and most of all, based on the facts. Allowing corporate controlled media conglomerates like Sinclair to use their power to force their affiliated stations to air a biased propaganda film like "Stolen Honor" and to do so under the guise of calling it "news" is a serious abuse of our media and a frightening threat to our democracy. It also is an abuse of our citizens who depend on the FCC to ensure that when they watch the news and trust that they are getting objective journalism, that they get objective journalism, not a disguised corporate funded infomercial.

Our courts are set up to protect our citizens against heinous abuses of power like child abuse and physical abuse. It is the FCC's job to protect our innocent and unsuspecting populous from corporate controlled media information abuse. It is a crime for Sinclair to use its power to abuse the American people. Please protect our citizens and stop Sinclair from airing this film. If it is aired, please do not allow Sinclair to call it news and require that equal airtime be given to a film of the Kerry campaigns choosing like "Upriver".

Thank you for your time and dedication,
Sincerely,
Deborah Osgood
